2. b) magnetism
3. c) a glass cup — *glass is not iron or steel*
4. b) A magnet catch holds it.
5. c) a compass
6. a) holding a paper on the whiteboard
7. a) The paper clip is made of steel, so the magnet pulls it.
8. b) to pull towards

Part B — True or false

9. F (false) — A magnet pulls only some metals, like iron and steel.
10. T (true)
11. T (true)
12. F (false) — A magnet does not pull plastic.
13. F (false) — We can find magnets at school and at home, for example on the fridge door.

Part C — Complete the sentences

14. whiteboard
15. pulls
16. closed
17. steel
18. compass

Part D — Match the object to what its magnet does

a → 3 · b → 1 · c → 5 · d → 2 · e → 4

Part E — Magnet detective record

Expected answer (example): whiteboard magnet · on the whiteboard · holds papers; cupboard door · in the classroom · keeps the door closed (other real examples: pencil case, compass, fridge in the kitchen).

Para o responsável, confira: 2 objetos que têm ímã de verdade; onde fica cada um; o que o ímã faz; escrita clara (vale 0,65 cada linha)

Part F — Write

19. **Expected answer (example):** Magnets are important because they keep doors closed and hold papers on the board.
    Para o responsável, confira: frase completa (letra maiúscula e ponto final); diz por que é importante; dá um exemplo real
20. **Expected answer (example):** I bring a magnet close to the object. If the object moves to the magnet, the magnet pulls it.

Para o responsável, confira: aproximar o ímã do objeto; olhar se o objeto se move ou gruda; frase completa
